TO PLAY HOOKEY UNSAFE BUSINESS

FORMER SHERIFF ED WALLACE ATTENDANCE OFFICER

LAW WILL BE ENFORCED

Last Legislature Changed Truancy System — Teachers to Make All the Reports Now

Playing hookey is going to become an unpopular sport in Nodaway County.

Bert Cooper, county superintendent of schools, today appointed Ed Wallace, former Nodaway County sheriff, as truancy officer for the county. "Attendance officer" is the official title for Mr. Wallace, as truancy is expected to vanish when he gets to work. The county court today approved the appointment, and Mr. Wallace gave bond of $1,000, as required under the new law.

Mr. Wallace is expected to continue his jitney business in Maryville, but will give most of his personal attention to the attendance enforcement, according to Mr. Cooper. The new officer will have the powers of deputy sheriff and will work under the instructions of the county superintendent and the county court.

Old Law Seldom Enforced.

Under the old truancy law, which was seldom enforced because of its provisions for roundabout action, the clerks of the school boards were charged with reporting the truancies. They seldom cared to fall out with their neighbors, and a good many truancies went unreported. When they were reported, prosecution had to be started through the prosecuting attorney. There was no truancy officer for the county.

The last Missouri legislature got busy and changed things. Under the new law, now in force, the clerk must furnish the teacher a copy of the enumeration report.

Next, the teacher must report the attendance to the county superintendent at the end of each week for the first four weeks, and once a month thereafter. Special blanks are furnished for this purpose.

Next, the reports are turned over by the county superintendent to the county attendance officer, Mr. Wallace.

Next, Mr. Wallace serves notice on the parents or guardians of the offending children.

Lowest Fine Is $10.

And then, if the pupil stays out three days longer, the parent or guardian is placed under arrest. The penalty provided is a fine of not less than $10 or more than $25, or imprisonment of not less than two days or more than four, or both fine and imprisonment.

All children between 7 and 14 years old must attend a school of some sort for the full session, instead of the three-fourths session formerly provided for. Children from 14 to 16 must attend unless regularly employed six hours a day.

Children exempted from attendance are those with serious mental or physical disability; those who have completed a common school course; those who can show a physician's certificate of sickness; and, as mentioned before, those over 14 who can prove that they are regularly employed.

If a pupil is sick, the teacher should be notified, Mr. Cooper says, in order that an explanation of the pupil's absence may be sent in by the teacher in her regular report.

Otherwise, look out for the attendance officer!

AUGUST IS BUSY MONTH FOR POLICE FORCE OF MARYVILLE

Nine Arrests Reported, Highest Number This Year—Total of $76 Collected in Fines

The report of Claude Stultz, city marshal, for the month of August, to the city commissioners, brought to light the fact that there were nine arrests made. This is the largest number of arrests for one month made this year. The unusual activity of the city police is attributable to the county fair and the undesirable class that it brings to town.

Of the charges brought, there were three for drunkenness, two for fighting, two for adultery and two for gaming. A total of $76, not including costs was collected in fines.

ONLY TWO U. S. SOLDIERS LEFT UNACCOUNTED FOR AT PRESENT

More Than 85 Per Cent of Wounded Returned to Duty, According to Government Casualty List

Only two United States soldiers, of the hundreds of thousands exposed to death and disappearance, still remain in the official casualty list as "missing in action." Remarkable success has attended the efforts of the army investigators in this line in untangling the records. Tens of thousands still remain unaccounted for in the casualty lists of Great Britain and of France.

The last summary received by the Democrat-Forum is as follows:

Killed in action (including 382 at sea)	34,542
Died of wounds	13,960
Died of disease	23,632
Died from accident and other causes	5,288
Wounded in action (over 85% returned to duty)	214,308
Missing in action (not including prisoners released and returned)	2
Total to date	291,732

Ice Man Loses a Finger.

HE TAUGHT IN THE A. E. F. UNIVERSITY

PROF. H. A. FOSTER RETURNS TO PLACE IN COLLEGE HERE

TELLS OF WHAT HE SAW

Visited French Battlefields — Found Germans at Work Trying to Restore Damage They Had Done

Prof. Henry A. Foster, head of the department of European history of the State Teachers College, is home, ready to begin his work here again. Professor Foster, after having been granted a leave of absence from the college here, entered Y. M. C. A. service and sailed from New York for France September 3, 1918, arriving in Paris September 25.

From Paris he went to an American aviation school at Orly Field near Paris. He was stationed there until in January. While at Orly Field Professor Foster was educational director of a night school. His first duties upon arrival, were to organize classes, obtain capable teachers and buy necessary equipment. The school was organized to fit in with the regular army life, the classes being held at night.

Long List of Studies Given.

A complete list of studies, including motor mechanics, electrical engineering, physics, chemistry, history and the general academic courses were taught. Professor Foster, aside from his administrative duties, held class in current history. Nothing unless of a practical or worth while nature was considered in the school work.

After the signing of the armistice, Professor Foster and his classes took up a study of the terms of the peace treaty, viewing it from the standpoint of international law.

Late in January, the aviation school having been done away with, he went to Paris and worked in the central educational office for a month and a half. When the A. E. F. University was established at Beaume he was selected to head the department of history and served in that capacity until the school closed June 7. While he was teaching history in the university, a current history bulletin was printed under his direction.

Visited the Battlefields.

The last days of Professor's Foster's stay in France were taken up with visiting the various battlefields of France.

"The sight was one of utter desolation," he says. "I saw thousands of square miles of territory looking 200 per cent worse than nothing. Billowing seas of shell holes stretched before me wherever I looked. Abandoned implements of war of every description lay strewn over the battlefields.

"First I visited that famous battleground of Chateau Thierry, where the American marines won immortal fame by turing back the Huns marching on Paris. Near this place I saw the battleground of Belleau Woods.

"I recall the scenes in and around Montdidier. In peace times this is a beautiful city of about 7,000. There were a few houses standing when I was there, but on the whole there was nothing much more than piles of shattered stones and gaping holes in the ground.

Rheims Almost Complete Wreck.

"At Rheims, a city of 150,000 people, twelve houses were left standing. The historic cathedral, about which so much has been written, stands a fragment of what it used to be. It is said that it might be restored in a way to its former grandeur by years of labor and an expenditure of vast sums of money.

"Lens is a total ruin. Not a house is left standing there. The site of the city is a bare waste of rocks and shell holes. Here and there one can see bleached-out human bones, bespeaking the tale of the human struggle which took place when the town was attacked by the Germans.

"The battlefields of Lille, Arras, Verdun and Vimy Ridge were visited. The last named place is famous for the desperate fighting of the Canadians which took place there.

"One, when he sees the desolation of the battle area, wonders how the country can ever be reclaimed. But it is being done. German prisoners are being given the task of cleaning up the barbed wire entanglements and removing unexploded shells. In that way the Hun is paying the price for some of his horrors."

Encampment at Columbus, Ohio, This Year—Plan to Unite Nodaway County Men

Maryville Veterans are making plans to attend the annual national convention of the Grand Army of the Republic, which will be held this year at Columbus, Ohio, September 7 to 12 inclusive. A 1-cent a mile rate is offered by the railroads, and several of the veterans who are natives of Ohio are taking advantage of this opportunity to revisit their old homes.

Among those planning to go are Nat Sisson, John Evans, J. D. Dickerson, Richard Snyder, J. E. O'Neal and Matt Goodson.

RECORD ENROLLMENTS ARE REPORTED BY SCHOOLS HERE

H. S. Figures Total 311, With 325 Expected by End of Week—584 Signed in the Grades

At noon today 311 students had registered here for high school work, the largest enrollment in the history of the local high school. A record freshman class of 112 registered yesterday afternoon. Superintendent J. M. McDonald stated that he expected the registration to creep up to 325 before the end of the week.

The grades have a total enrollment of 584, which is also a record.

The Smith - Hughes vocational classes were more than filled by freshman girls yesterday afternoon. Five divisions of this have been made, and the demand has exceeded the facilities for instruction.

Every teacher has her full quota of classes, and some classes are yet unprovided for. Superintendent McDonald and Prof. L. E. Ziegler have had to work overtime to take the unusually large number of students.

The Rev. Tom Middleton, a former resident of Maryville, died at the home of his sister, Mrs. John Gerlash, of Tarkio, at 5:20 o'clock this morning. Death was due to a stroke of paralysis. The body, accompanied by relatives, was taken to Unionville, Mo., this afternoon, where he will be laid to rest beside his father and mother, who are buried there. Besides his sister, Mrs. Gerlash, the deceased is survived by another sister, Miss Edna Middleton, of Tarkio.

Rev. Middleton grew up in Maryville and was a graduate of the high school and Maryville Seminary. He was a son of the late Rev. and Mrs. S. O. Middleton. Rev. O. S. Middleton was for a long time the presiding elder of this district of the Methodist church.

Rev. Tom Middleton's first pastorate was at Memphis, Mo., where he served for six months. From there he removed to the church at Kahoka, Mo., being minister there a year. Mr. Middleton took the pastorate of the Burlington Junction church.

Having spent a year at Burlington Junction, he abandoned the ministry and took up chautauqua and lyceum work. Being a gifted orator, he won considerable recognition for his platform ability and was always in demand.

MEXICAN AFFAIRS AGAIN BOTHER U.S.

WOUNDING OF ARMY AVIATOR CAUSE OF TROUBLE

DONE BY CARRANZA MEN

No Denial is Made of That, But Claims Differ as to Where Shooting Took Place

Washington, Sept. 3.—The Mexican situation again was engaging the attention of official Washington today. The wounding of an American aviator flying on the United States side of the border, apparently by Mexican soldiers, constitutes, in the opinion of officials, an act of hostility more serious than any in the long series that have caused relations between that country and the southern republic to remain strained for months.

On Mexican Side, Says Mexican.

Laredo, Texas, Sept. 3.—The army airplane carrying Captain McNabb and his mechanician was one kilometer on the Mexican side of the border when the Mexican soldiers fired the volley wounding McNabb, according to a statement today by General Reyaldo Garza, commander of the Carranza garrison at Neuvo Laredo.

No effort is being made by the Mexican officials to conceal the fact that Carranza soldiers fired upon the Americans, but they seek to justify the shooting on the grounds that the American aviators "continue to invade Mexican territory, despite numerous protests."

Tax Assessor Leyendecker, owner of the farm on which McNabb landed after being shot, declares that he can furnish positive proof that the Americans were flying over United States territory at the time the Mexicans fired upon them.

No Troops Likely to Go.

San Antonio, Texas, Sept. 3.—No American troops are likely to be ordered across the Rio Grande to capture the Mexicans who yesterday riddled an American army airplane, severely wounding the pilot, it was indicated here today. Army officials, however, did not attempt to conceal their indignation at the incident.

Both the pilot and his mechanician, in amplified reports today, reiterated that they were flying on the American side of the border when the shots were fired.

HOSPITAL NURSE PRAISES TANLAC

Gains Eleven Pounds and Is Feeling Fine Since Taking Tanlac

"Tanlac did so much for me that I feel that it is my duty to tell others about this medicine," said C. M. Rhamey, a professional nurse living at the Hotel George, on sixth street, San Francisco, Cal., recently. Mr. Rhamey has been nursing patients in the hospitals for the past eight years.

"Last February," he cotinued, "owing to an accident in which my leg was broken I was confined to my bed for several weeks. I lost my appetite and could hardly eat anything to nourish me, consequently I lost weight. I took several different kinds of tonics, hoping they would help build me up but they did me no good.

"One morning I read a statement by a lady in Los Angeles who said she had gotten such wonderful benefits from taking Tanlac that I decided to try it myself. By the time I had finished half of my first bottle my appetite returned and I felt hungry for the first time in weeks. From then on I started right in to pick up and my appetite got better and better and I slept better at night. I have already gained eleven pounds and am feeling just fine; even my doctor has remarked how much better I am looking. I would never allow my name to be used in connection with a medicine before, but I have had such excellent results from using Tanlac that I take great pleasure in recommending it to anyone needing a medicine to build up the system."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, and in Hopkins by Hopkins Drug Co." ADV.

President A. Ross Hill, in an address at the opening convocation, predicted that this wil be the record year for attendance since the founding of the university. Latest Styles In Fall Millinery

An unusual collection of the very newest hats, created in accord with Paris and New York dictates has been arranged in the millinery department.

Black is a leader in fall hats although there are many colors being featured, and especially in combination with black. Taupe, navy, beaver, brown and rose are prominent among the new assortment, while thistle or chardon as the French call it—a shade of pink lavender that is becoming to most types, the capucine or nasturtium, the copper, turquoise, wine and Royal or Versailles blue are all meeting with favor.

The shapes are of many variations in small, medium and large. The chin chin shape in its many variations is a popular model. The Breton sailors are related to this style of hat and these two models share favor with the beret.

Among trimmings, feathers reign supreme, the newest not being the soap-washed or savonne ostrich. This process gives a cloudy effect that is very unique. Coq, pheasant, vulture, burnt hackle, in wings, pompous and fantasies are all extremely popular.

Remember, we have designers that are capable of creating a hat in exact accord with your individual ideas—If we do not have a model that meets your desire we will create one that does.

Come and try on some of the new hats whether you wish to buy or not, we will appreciate your interest.

Every Missourian knows that General John J. Pershing, commander of the American Expeditionary Force in France, now on the ocean on his way to this country, is a native of Missouri. Pennsylvania has to get in on the honor, though, as witness this dispatch:

Greensburg, Pa., Sept. 3.—A movement is under way in Westmoreland county to have the old Frederick Pershing homestead near Youngstown purchased by the nation, state or county, or by funds raised through private subscription, and have it set aside as a park. The purpose is to place in the country a memorial to the pioneer of the Pershing family, Frederick Pershing, from whom General John J. Pershing is a lineal descendant of the fourth generation, settled here in 1763.

Pig Gets a Ride in a Plane.

Atlanta, Ga., Sept. 3.—The cow that jumped over the moon had not much on the 75-pound pig delivered at LaGrange by Lieutenants McMullen and Wolfe, famous fliers, in an airplane from Souther Field, Americus. The pig is the scion of a distinguished porcine family on the farm of Arles Farris near Americus, and was awarded as a prize to the lucky rookie who drew the right number after enlisting during July. A part of the arrangement was that the pig was to be delivered by airplane.
